

- ◆ "We have always relied on John Henley of Decision Analytics for our Lawson services, from Unix to NT platforms; he has always been able to complete all of the projects we have asked of him."
- ◆ "His knowledge of the various Lawson systems has given us the additional insights on how to implement modules that allow us the most flexibility for our business requirements."
- ◆ "His professional performance, quick response time, and business knowledge have made him our Lawson consultant of choice."
- ◆ "We have found that John possesses in one person all of the skills that a larger systems integration firm would have in its entire department."

--Brian Miller, Senior Application Analyst, Ciraden, Inc.

Ciraden, Inc., headquartered in Fairfax, Virginia, is a leading provider of comprehensive business services and technology solutions to dental practices throughout the United States. As a vertically focused application services provider (ASP), Ciraden offers Internet-native software solutions designed specifically to meet the needs of dentists. The company's products and services are created as tools for maximizing the productivity and efficiency of a dental practice. In addition to its proprietary web-based software solution, Ciraden offers a full range of integrated business services that includes preferred partnerships with leading service and product providers.

Visit Ciraden's website at [www.ciraden.com](http://www.ciraden.com).

*John Henley has over 15 years of consulting experience in the IT industry--spanning multiple industries, including healthcare, government contracting and professional services. He holds an undergraduate Business Administration degree from James Madison University and a Masters in Information Systems from George Mason University. He worked for one of the largest software companies in the world before founding Decision Analytics in 1990. Decision Analytics, based in Arlington, Virginia, provides technology consulting and software development services, with a primary focus on Lawson Software products.
