

- ◆ "Decision Analytics provides targeted services that accomplish what all consulting engagements should, but many don't—to understand and address your technical and functional needs quickly and efficiently, while simultaneously providing knowledge transfer to your internal resources."

- ◆ "The flexibility of Decision Analytics' service offerings, the quality of John Henley's work, and the extent of his technical and business knowledge are positively overwhelming."

-- Chris Brown, Manager, Information Systems & Telecommunications

Montgomery General Hospital is a 191-bed, not-for-profit community hospital. Founded in 1918 by Jacob Wheeler Bird, MD, the original hospital had 28 beds and was the first acute care hospital in Montgomery County. Montgomery General Hospital serves the greater Baltimore and Washington metro areas.

Visit Montgomery General Hospital's website at www.montgomerygeneral.com.

John Henley has over 15 years of consulting experience in the IT industry--spanning multiple industries, including healthcare, government contracting and professional services. He holds an undergraduate Business Administration degree from James Madison University and a Masters in Information Systems from George Mason University. He worked for one of the largest software companies in the world before founding Decision Analytics in 1990. Decision Analytics, based in Arlington, Virginia, provides technology consulting and software development services, with a primary focus on Lawson Software products.
