

- ◆ "I have worked with John Henley of Decision Analytics for the last nine years in three different companies where I was CIO:"
 - ◆ "In the first, he was instrumental in a Lawson general accounting installation that was successfully installed in less than nine months in a \$500 million revenue NYSE firm with 4500 employees."
 - ◆ "In the second, he was crucial to turning around a previously poor Lawson implementation in a \$300 million revenue firm with 3125 employees."
 - ◆ "In the third, he was key to correcting a critical accounts receivables problem in a \$700 million revenue NASDAQ firm."
- ◆ "With a unique combination of business savvy, technical knowledge, and software development experience, John is always a can-do performer with superior judgment."
- ◆ "I plan to continue his involvement in every firm I am called on to fix in the future. "

--Robert E. Kaplan, Sr. Vice President, WebMD Envoy

WebMD is the leader in providing services that help physicians, consumers, providers and health plans navigate the complexity of the healthcare system. WebMD's products and services streamline administrative and clinical processes, promote efficiency and reduce costs by facilitating information exchange, communication and electronic transactions between healthcare participants.

Visit WebMD's website at www.webmd.com.

John Henley has over 15 years of consulting experience in the IT industry--spanning multiple industries, including healthcare, government contracting and professional services. He holds an undergraduate Business Administration degree from James Madison University and a Masters in Information Systems from George Mason University. He worked for one of the largest software companies in the world before founding Decision Analytics in 1990. Decision Analytics, based in Arlington, Virginia, provides technology consulting and software development services, with a primary focus on Lawson Software products.
